On the "Aesthetic of Pleasantness" in Landscape Architecture; Appendix; Copyright
Sommario/riassunto	How can an abstract term like ""Topology"" become pertinent and effective to landscape thinking today? There is a schism between the way landscape is understood scientifically, either as a normative network or an environmental system, and the way the same place exists emotionally for people. This disparity which prevails in today's landscape calls for a change of approach, both in terms of action and perception. Topology, in this instance, is not confined to the science of continuous surfaces in mathematics, it can pay greater attention to deeper spatial, physical, poetic and philosophical va
