

1. Record Nr.	UNINA9910449912603321
Autore	Anderson John E (John Edwin), <1951->
Titolo	Bidding for business [[electronic resource]] : the efficacy of local economic development incentives in a metropolitan area // John E. Anderson and Robert W. Wassmer
Pubbl/distr/stampa	Kalamazoo, Mich., : W.E. Unjohn Institute for Employment Research, 2000
ISBN	0-585-31361-X
Descrizione fisica	1 online resource (257 p.)
Altri autori (Persone)	WassmerRobert W
Disciplina	354.2/79/0973
Soggetti	Industrial development bonds - United States Industrial development bonds - Michigan - Detroit Metropolitan Area Industrial promotion - United States Industrial promotion - Michigan - Detroit Metropolitan Area Full employment policies - United States Full employment policies - Michigan - Detroit Metropolitan Area Tax incentives - United States Corporations - Taxation - United States Corporations - United States - Finance Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 211-219) and indexes.
Nota di contenuto	Contents; Acknowledgements; The Authors; Preface; 1 - Local Economic Development Incentives in the United States; 2 - Evidence on the Influence of Local Economic Development Incentives; 3 - Local Incentive Programs and Spatial Mismatch in Metropolitan Detroit; 4 - A Model for Development Incentives in a Metropolitan Area; 5 - Empirical Results; 6 - Summary and Policy Recommendations; Afterword; Appendix 1 - Regression Identification; Appendix 2 - Regression Results; References; Author Index; Subject Index; About the Institute

2. Record Nr.	UNINA9910163131403321
Titolo	Current concepts in uveal melanoma // volume editors, Martine J. Jager ... [et al.]
Pubbl/distr/stampa	Basel, : Karger, 2012
ISBN	3-8055-9791-6
Descrizione fisica	1 online resource (196 p.)
Collana	Developments in ophthalmology, , 0250-3751 ; ; v. 49
Altri autori (Persone)	JagerMartine

Sommario/riassunto

Uveal melanoma is an aggressive form of cancer that can involve the iris, the ciliary body, and/or the choroid, which is the main location of this tumor. Patients often wish to be informed about treatment choices and the results of different approaches. Important current clinical questions are whether a biopsy should be taken of choroidal melanomas, what should be done with this biopsy, and whether high-risk patients should be screened regularly. This volume describes the clinical characteristics of uveal melanoma along with the different current techniques available for treatment, such as radioactive plaque treatment, proton beam therapy, and local tumor resection. Furthermore, techniques for taking biopsies and characterizing biopsy material are demonstrated. Future therapies such as anti-VEGF treatment and options for the treatment of metastases are also discussed. Residents with an interest in ocular oncology, ophthalmologists or physicians dealing with uveal melanoma, as well as patients wishing to know more about this malignancy will find a topical update on uveal melanoma in this publication.
