Sommario/riassunto

This volume, part of Charles Oman's comprehensive history of the Peninsular War, covers the period from September 1812 to August 1813. It provides a detailed account of key military campaigns and battles during this time, including the Siege of Burgos, Wellington's retreat, the campaign of Vittoria, and the battles of the Pyrenees. Oman meticulously analyzes the strategic movements, challenges, and outcomes faced by the British, Spanish, and French forces. His work is richly supplemented with maps and illustrations, offering a vivid depiction of the war's landscape and military tactics. The book is intended for historians, military enthusiasts, and scholars interested in Napoleonic wars and European military history. Oman's narrative is well-researched, drawing upon his travels and study of the Iberian Peninsula, though he acknowledges limitations in firsthand observation for certain campaigns.
