Sommario/riassunto	<p>In a new paranormal romance from Wendi Zwaduk, two tiger shifters meet the girl of their dreams. Now all they have to do is convince her they hold the key to her heart and a life of love. Hampered by the pain of her past, it may take a dual threat for love to rule the day. Kaia Martin dances to pay the bills. She doesn't mind baring her body, but her heart? That's another question. But what happens when two tiger shifters push her out of her comfort zone and into her heart's desire? Evan and Ian Davis have been in love with Kaia since the moment they met her. Their tigers know she's the one for them. They've waited long enough for her to see what they've always known--she's their mate. Can these twin tiger shifters prove love really can conquer all?</p> <p>Content Notes: Paranormal, Menage, Shifters, Hot, Anal Play, Polyamory, MFM</p>
