Sommario/riassunto	<p>Would you risk your life to save the ones you love? For Leah Wolfe the answer is a resounding yes. Rhonda L. Print spins a fantastic tale of intrigue and suspense in Book 4 of her best-selling SINS series. Kidnapping, a mad scientist, and danger around every corner will keep you on the edge of your seat as you find out if the Phoenix always rises! Leah Wolfe of the Supernatural Investigations of Non-human Species--SINS for short--is learning to control her necromancer skills while balancing her life as a federal agent and fiancée to the Marquis of the vampire world, Ian Nightwalker. When her godson is kidnapped and the kidnapper offers to trade the boy for Leah, she doesn't hesitate. Leah finds herself in the lair of Phoenix, a former Marquis bent on avenging the death of his lover. He is also a scientist who is using DNA from various species with the hopes of creating an army of Supernaturals. Leah must stop Phoenix, save those he has tampered with, and get back to Ian. But first, she must save herself. Content Notes: Suspense, Contemporary, Paranormal, Vampire, Wolves, Other Weres, Spicy</p>
