| Sommario/riassunto      | Earth is in danger! Now it's up to an alien veterinarian and a human computer programmer to track and exterminate the threat. Author Barbara Karmazin has the magic touch when it comes to writing hot |

and sexy science fiction romance. Join Sonia and Rulagh on their epic adventure as they save the Earth and find passion and love in The Huntress. It's 2032, RULAGH is an exo-biologist and veterinary surgeon at the Interstellar Humane Society. While purging three hundred years of outdated files, an anomaly snags his attention. Eighty years ago, interstellar tourists misplaced six pets on a remote planet listed as 'Earth' in the Sol star system. RULAGH alerts his superiors to the disastrous ecological repercussions from the feral descendants of these mislaid pets. He and three co-workers travel to Earth to eradicate the dangerous pets before this incident causes a major uproar in interstellar politics. SONIA RODRIGUEZ, arrives in Cabo Rojo, Puerto Rico. A science fiction enthusiast and Renaissance Faire quarterstaff jouster, Sonia programs computers, designs websites and security software. Her father's will states that in order for her to claim a billion dollar inheritance, she must live in his Cabo Rojo mansion for one year. Sonia and Rulagh become The Huntress and Alien in Black. They create a team of aliens and humans to eradicate these dangerous animals and, in the process of working together, forge a love that transcends species.
