Sommario/riassunto	<p>Maddy Barone presents the newest addition to her hot, sexy series, After the Crash. In a post-apocalyptic world where women are rare commodities and sold to the highest bidder, one wolf is determined only he will have the woman who is his destined mate. Danger lurks around every corner and passion ignites the pages in Ellie's Wolf, Book 5 of this sizzling series. In a post-apocalyptic world where women are rare and valuable, Ellie Overdahl is a widow far from home at the mercy of strangers. Sold to be a prize in a Bride Fight, she manages to send word to her cousin, begging for rescue. For six years, Quill Wolfe has mourned the loss of the woman his wolf chose to be his mate. When word comes that Ellie is widowed and about to be forced into an unwanted marriage, he races to enter the Bride Fight. He has waited long enough to claim his mate, and no fighter is good enough to keep him from her. But claiming Ellie is only the beginning. It's not only the journey home that is dangerous and uncertain. Content Notes: Spicy</p>
