be our only children. While all parents expect their children to outlive them, unfortunately, we can't expect the same from our pets. And, just like losing a family member, losing a pet causes grief and loss. They've been with us for years, some for decades, providing unconditional love, companionship and a sense of purpose. When they're gone, most of all, we want to know that our furry, feathered, or scaled friends are happy- wherever they are. For years, animal communicator Sonya Fitzpatrick has helped pet owners cope with the loss of their beloved companions; time and again she hears the same questions: Is my pet happy? Is it okay to get another pet? Using her personal experiences as well as the stories of the families she's worked with, Sonya sheds light on the questions that every grieving pet owner has, and assures the reader that there are, in fact, no sad dogs (or cats or birds or turtles or horses or cows) in heaven.
