Sommario/riassunto	<p>This is approximately 34,000 words. Dani's been through a year of hell...Just as it's getting better, she's tossed forward through time with her orange Persian cat, Charmin Marvin, clutched in her arms. They're dropped into a few centuries into the future. There's nothing she can do to stop it, and it's impossible to go back.And then it gets worse...A year of government regulation is easing, and Levi Blackburn is feeling back in control. If he can keep his reckless brother in check, everything will be perfect. But while he's been protecting Milo from the government, Milo's been busy working on a present for him...The present is Dani, only she comes with a snarky cat who suddenly starts talking...and doesn't know when to shut up.In an age where breaking protocols have severe consequences, things go wrong, putting them all in danger...</p>
