| Sommario/riassunto      | Groundwater allocation determines who is able to use groundwater resources, how, when and where. It directly affects the value (economic, ecological, socio-cultural) that individuals and society obtain from groundwater, today and in the future. Building on the 2015 OECD publication Water Resources Allocation: Sharing Risks and Opportunities, this report focuses on groundwater and how its allocation can be improved in terms of economic efficiency, environmental effectiveness and social equity. Drawing on an analysis of groundwater's distinctive features and nine case studies of groundwater allocation in a range of countries, the report provides practical policy guidance for groundwater allocation in the form of a "health check". This health check can be used to assess the performance of current arrangements and manage the transition towards improved allocation. |

| Sommario/riassunto      | Although biographies of Duke of Wellington abound, there few biographies of the generals that fought alongside him and executed his orders (or in some cases disobeyed them). The author John William Cole was well placed to provide the details of their lives being a long serving soldier in the British Army; his biographical sketches of the generals are accurate, pithy and although tactful he does not avoid dealing with their faults such as Beresford's less than impressive performance at Albuera. Battles such as Coruna, the Coa, Salamanca, Vittoria, and Waterloo are covered in excellent detail in the round, and particular focus is shown to the actions of the generals in question. This volume chronicles the lives of No. I. -- SIR JOHN MOORE. No. II -- SIR DAVID BAIRD. No. III. -- THE MARQUESS OF ANGLESEY. No. IV. -- SIR EDWARD PAGET. No. V. -- LORD BERESFORD. No. VI. -- MAJOR-GENERAL ROBERT CRAUFURD. No. VII. -- SIR G. LOWRY COLE. Author - John William Cole (????-1870) |
