Sommario/riassunto	A college girl has the power to predict cricket matches. But her lover thinks otherwise- she has the power to see glimpses of future - and he is right. Things take a turn in their relationship when they realize this. Their trust and love, which were once spontaneous, become carefully thought our choices. And then, she has a vision. A vision to do with her brutal death and her lover. Should she believe in her vision or her most trusted lover? Should she ignore the premonitions or plan escape?.
