

1. Record Nr.	UNINA9910164281703321
Autore	Sara M. N
Titolo	Evaluation and Remediation of Low Permeability and Dual Porosity Environments
Pubbl/distr/stampa	[Place of publication not identified], : American Society for Testing & Materials, 2002
ISBN	0-8031-5463-1
Descrizione fisica	1 online resource (190 pages) : illustrations, maps
Collana	ASTM special technical publication ; ; 1415
Altri autori (Persone)	Sara Martin N. <1946-> Everett Lorne G
Disciplina	628.5/5
Soggetti	Soil remediation Soil permeability
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Comparison between various Field and Laboratory Measurements of the Hydraulic Conductivity of three Clay Liners / D Cazaux, G Didier -- Hydraulic Conductivity of a Fractured Aquitard / T Abichou, CH Benson, M Friend, X Wang -- Water Potential Response in Fractured Basalt from Infiltration Events / JM Hubbell, ED Mattson, JB Sisson, DL McElroy -- On The Measurement Of The Hydraulic Properties Of The Environmental Medium / SS Gordji, L Pirouzian -- Pressure-Pulse Test for Field Hydraulic Conductivity of Soils: Is the Common Interpretation Method Adequate? / RP Chapuis, D Cazaux -- Determining the Hydraulic Properties of Saturated, Low-Permeability Geological Materials in the Laboratory: Advances in Theory and Practice / M Zhang, M Takahashi, RH Morin, H Endo, T Esaki -- Evaluation of Constant Head Infiltration Test Analysis Methods for Field Estimation of Saturated Hydraulic Conductivity of Compacted Clay Liners / D Cazaux -- Impact of Residual NAPL on Water Flow and Heavy Metal Transfer in a Multimodal Grain Size Soil under Saturation Conditions: Implications for Contaminant Mobility / R Galvez-Cloutier, J-S Dube -- Electrokinetic Removal of Phenanthrene from Kaolin Using Different Surfactants and Cosolvents / KR Reddy, RE Saichek -- Transfer of Heavy Metals in a Soil Amended with Geotextiles / L Lassabatere, T Winiarski, RG Cloutier -- Application of the Colloidal Borescope to Determine a Complex
