

1. Record Nr.	UNINA9910164295803321
Autore	Craig Martin
Titolo	Pesticide Formulations and Delivery Systems: Traditional and Non-Traditional Developments
Pubbl/distr/stampa	[Place of publication not identified], : American Society for Testing & Materials, 2008
ISBN	0-8031-6735-0
Descrizione fisica	1 online resource (viii, 101 pages) : illustrations
Collana	ASTM special technical publication ; ; 1500
Disciplina	632.95
Soggetti	Agricultural chemicals - Adjuvants
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Development of fast dissolving concentrated gibberellin water soluble granular formulations / Bala N. Devisetty [and others] -- Controlled release pellet formulation / Richard Houghton -- Microencapsulated clomazone: formulation stability, tank mix volatility, and solvent effects / David W. Keifer [and others] -- Water dispersible granule formulations containing a new defoaming agent / Andrew F. Kirby, Alice L. Lavranos, and Curtis M. Elsik -- New polymeric comb dispersants for agricultural formulations: a comparison of performance in pesticide suspension concentrates / Alan J. Stern and Curtis M. Elsik -- Formulation performance improvements with blends of alkyl naphthalene sulfonate condensates plus lignosulfonates when compared to lignosulfates alone / Mark W. Alexander -- Glyphosate adjuvant formulation with glycerin / Curtis M. Elsik, Howard M. Stridde, and R. Scott Tann -- New solvents for agriculture-a theoretical modeling approach / Lei Zhang -- Alkyl-capped block copolymer surfactants for remediation of soil water repellency and heterogenous rootzone moisture / Stanley J. Kostka, Gregor Schuermann, and Mica Franklin -- Use of a soil surfactant with fungicides for control of fairy ring disease in turfgrass / M.A. Fidanza [and others] -- Novel adjuvants for targeting pesticied delivery / Donald Penner -- Fluorescence imaging as a non-invasive technology to monitor th eperformance of glyphosate adjuvants and formulations / H. de Ruiter [and others] -- Managing aldicarb applications with GPS/GIS systems / Masoud Salyani

[and others].
