Sommario/riassunto	Third in a series highlighting recent developments in the areas of waste and environmental media characterization (the first, in 1988, was STP 999), STP 1075 covers new technology, methods, and quality assurance procedures for waste management. Though the volume focuses on problems related to hazardous waste management and contaminated site cleanup, the methodology and practices are applicable to all forms of environmental monitoring and material characterization. Price to members, \$55. Annotation copyrighted by Book News, Inc., Portland, OR.
