

1. Record Nr.	UNINA9910164320903321
Autore	Chona Ravinder
Titolo	Fracture Mechanics: Twenty-Third Symposium
Pubbl/distr/stampa	[Place of publication not identified], : American Society for Testing & Materials, 1993
ISBN	0-8031-5241-8
Descrizione fisica	1 online resource (866 pages) : illustrations
Disciplina	620.1
Soggetti	Fracture mechanics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and indexes.
Sommario/riassunto	The proceedings of the 23rd National Symposium on Fracture Mechanics, held in College Station, Texas, June 1991, present a broad overview of the current state of the art in fracture mechanics research. Following the Swerdlow Lecture ("Structural Problems in Search of Fracture Mechanics Solutions" by J.M. Barsom), 45 papers address topics in elastic-plastic fracture mechanics analyses, constraint issues, and applications; linear-elastic fracture mechanics analyses and applications; fatigue and nondestructive evaluation; composites and nonmetals; and probabilistic and dynamic issues. Annotation copyright Book News, Inc. Portland, Or.
