

1. Record Nr.	UNINA9910164322203321
Titolo	Composite materials for implant applications in the human body : characterization and testing
Pubbl/distr/stampa	[Place of publication not identified], : ASTM, 1993
ISBN	0-8031-5233-7
Collana	STP Composite materials for implant applications in the human body
Disciplina	617.3/07
Soggetti	Biomedical materials Composite materials Orthopedic implants - Congresses Equipment and Supplies Biomedical and Dental Materials Specialties, Surgical Manufactured Materials Medicine Specialty Uses of Chemicals Technology, Industry, and Agriculture Health Occupations Chemical Actions and Uses Occupations Biocompatible Materials Prostheses and Implants Orthopedics Health & Biological Sciences Biomedical Engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
