

1. Record Nr.	UNINA9910164690103321
Titolo	MiCon 86 : optimization of processing, properties, and service performance through microstructural control : a symposium // editor, B. L. Bramfitt
Pubbl/distr/stampa	Philadelphia : , : American Society for Testing and Materials, , 1988 ©1988
ISBN	0-8031-5050-4
Descrizione fisica	1 online resource (xii, 315 pages) : illustrations
Collana	ASTM special technical publication MiCon 86
Disciplina	669/.95
Soggetti	Physical metallurgy Microstructure
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Development of microstructure to optimize mechanical performance of power generation equipment / P. Marshall -- Effects of residual elements in heavy forgings / R.L. Bodnar and R.F. Cappellini -- New low chromium ferritic pressure steels / J.A. Todd, R.W. Sindeman, and R.L. Klueh -- Microstructural stability and control for improved irradiation resistance and for high-temperature strength of austenitic stainless steels / P.J. Makiasz -- The role of electron microscopy in gas turbine materials development / R.A. Sprague and R.W. Smashey -- Trends in atomization and consolidation of powders for high temperature aerospace materials / A. Lawley -- Microstructure-property relationships in directionally solidified single-crystal nickel-base superalloys / R.A. Mackay and M.V. Nathal -- Development of nickel and nickel-iron aluminides for elevated-temperature structural use / C. T. Liu -- Microstructure and property relationships in oxide dispersion strengthened alloys / R.C. Benn -- Alloy chemistry and microstructural control to meet the demands of the automotive Stirling engine / J.R. Stephens -- Control of fiber architecture for tough net-shaped structural composites / F.K. Ko, D.W. Whyte, and C.M. Pastore.
