1.	Record Nr. Autore	UNINA9910164718403321 Hickey C. F
	Titolo	Fatigue and Fracture Toughness-Cryogenic Behavior
	Pubbl/distr/stampa	[Place of publication not identified], : American Society for Testing & Materials, 1974
	ISBN	0-8031-4642-6
	Descrizione fisica	1 online resource (185 pages) : illustrations
	Disciplina	620.1
	Soggetti	Metals - Effect of low temperatures on
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Bibliographic Level Mode of Issuance: Monograph
	Nota di bibliografia	Includes bibliographical references.
	Sommario/riassunto	This special technical publication consists of eight papers presented during the symposium on Fatigue and Fracture Toughness of Metallic Materials at the Seventy-sixth Annual Meeting of the American Society for Testing and Materials held in Philadelphia, Pa., 24-29 June 1973. The symposium was sponsored by the Low Temperature Panel of the American Society for Testing and Materials, American Society of Mechanical Engineers, and Metal Properties Council Joint Committee on the Effect of Temperature on the Properties of Metals. C. F. Hickey, Jr., Army Materials and Mechanics Research Center, and R. G. Broadwell, Titanium Metals Corporation of America, presided as symposium cochairmen.
