Disciplina	621.885
Soggetti	Gaskets
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	The papers in this symposium encompass a broad spectrum of gasket technology. They are indicative of the numerous areas in which expertise has developed. Of particular interest are the presentations dealing with newer types of materials, especially in view of their increasing importance. It is hoped that these papers will help to advance the knowledge in this field by providing useful information and by stimulating creative thought as a basis for future new development.
