

1. Record Nr.	UNINA9910164906303321
Autore	Seibel Mache
Titolo	The estrogen window : the breakthrough guide to being healthy, energized, and hormonally balanced--through perimenopause, menopause, and beyond / / Mache Seibel ; illustrations by Paige Vickers ; book design by Carol Angstadt
Pubbl/distr/stampa	[Emmaus, Pennsylvania] : , : Rodale, , 2016 ©2016
ISBN	1-62336-675-5
Descrizione fisica	1 online resource (166 pages) : illustrations
Classificazione	HEA024000SEL005000HEA010000
Disciplina	618.1/75
Soggetti	Menopause - Hormone therapy Estrogen - Therapeutic use Middle-aged women - Health and hygiene
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	" When administered at the right time, estrogen therapy can lead to substantial improvements in a woman's quality of life. Yet, for more than a decade, women have been told about many worrisome side effects of hormone replacement therapy, including an increased risk of cancer, blood clots, and heart disease. In The Estrogen Window, Dr. Mache Seibel shows that not taking estrogen at the right time following menopause actually increases the risk of suffering one of those events. Falling estrogen levels also increase a woman's risk for heart disease and Alzheimer's, as well as osteoporosis. Dr. Seibel presents groundbreaking research that proves how every woman has an "estrogen window," an ideal time to begin estrogen replacement, which can minimize menopausal symptoms such as hot flashes, night sweats, mood swings, fractured sleep, brain fog, irritability, and weight gain. Not only can women safely take estrogen during this window, but also taking the hormone this way provides a wide range of health benefits that guarantee women increased protection from the very conditions they have been led to fear most. "--
