Sommario/riassunto	This ebook consists of a summary of the ideas, viewpoints and facts presented by Lou Dobbs in his book "Independents Day: Awakening the American Spirit". This summary offers a concise overview of the entire book in less than 30 minutes reading time. However this work does not replace in any case Dobbs' book. Dobbs argues that it is time for American people to take back the American political system, as it no longer reflects the hopes of the people he also says that the country needs a new vision that represents "we the people".
