Sommario/riassunto	This ebook consists of a summary of the ideas, viewpoints and facts presented by Robert F. Kennedy Jr. in his book "Crimes Against Nature, How George W. Bush and His Corporate Pals Are Plundering the Country and Hijacking our Democracy". This summary offers a concise overview of the entire book in less than 30 minutes reading time. However this work does not replace in any case Robert F. Kennedy's book. Kennedy Jr. argues that Bush Administration has privileged corporate greed but has scarified the respect for law, public health, and even long term economic vitality.
