

1. Record Nr.	UNINA990008555740403321
Autore	Santulli, Carlo
Titolo	Le statut international de l'ordre juridique etatique : etude du traitement du droit interne par le droit international / Carlo Santulli ; preface de Jean Combacau
Pubbl/distr/stampa	Paris : Pedone, c2001
ISBN	2-233-00391-8
Descrizione fisica	XIV, 540 p. ; 24 cm
Collana	Publication de la Revue générale de droit international public , Nouvelle série ; 51
Disciplina	341.04
Locazione	FGBC
Collocazione	X N3 181
Lingua di pubblicazione	Francese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910164980803321
Autore	Salhi Saïd
Titolo	Heuristic Search : The Emerging Science of Problem Solving // by Saïd Salhi
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Palgrave Macmillan, , 2017
ISBN	9783319493558 3319493558
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (XVII, 213 p. 17 illus.)
Disciplina	658.4038
Soggetti	Business information services Operations research Quantitative research Algorithms Computer science Business Information Systems Operations Research and Decision Theory Data Analysis and Big Data Computer Science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Chapter 1: Introduction -- Chapter 2: Improvement-Only Heuristics -- Chapter 3: Not-Necessary Improving Heuristics -- Chapter 4: Population-based Heuristics -- Chapter 5: Hybridisation Search -- Chapter 6: Implementation Issues -- Chapter 7 Applications, Conclusion and Research Challenges.
Sommario/riassunto	This book aims to provide a general overview of heuristic search, to present the basic steps of the most popular heuristics, and to stress their hidden difficulties as well as their opportunities. It provides a comprehensive understanding of Heuristic search, the applications of which are now widely used in a variety of industries including engineering, finance, sport, management and medicine. It intends to aid researchers and practitioners in solving complex combinatorial and

global optimisation problems, and spark interest in this exciting decision science-based subject. It will provide the reader with challenging and lively methodologies through which they will be able to design and analyse their own techniques.
