Sommario/riassunto	This ebook consists of a summary of the ideas, viewpoints and facts presented by Newt Gingrich in his book "Winning the Future: A 21st Century Contract with America". This summary offers a concise overview of the entire book in less than 30 minutes reading time. However this work does not replace in any case Newt Gingrich's book. Gingrich sets up a vision of the "liberal elite" and the direction of the U.S. and he points out to the changes that must be done to ensure a successful America for future generations.
