Sommario/riassunto	This ebook consists of a summary of the ideas, viewpoints and facts presented by Richard J. Elkus, Jr. in his book "Winner Take All: How Competitiveness Shapes the Fate of Nations". This summary offers a concise overview of the entire book in less than 30 minutes reading time. However this work does not replace in any case Richard J. Elkus', Jr. book. Elkus explains that over the last 30 years America has become the world's largest debtor nation. Therefore he highlights how to be competitive and recover the successful thinking this nation had in the past.
