Sommario/riassunto	This ebook consists of a summary of the ideas, viewpoints and facts presented by Muhammad Yunus in his book "Banker to the Poor, Micro lending and the Battle Against World Poverty". This summary offers a concise overview of the entire book in less than 30 minutes reading time. However this work does not replace in any case Muhammad Yunus's book. Yunus explains the requirements for a micro-credit and he argues that it is a simple concept that will help reducing poverty.
