Sommario/riassunto	In the last several years, much has been written about growing economic challenges, increasing income inequality, and political polarization in the United States. Addressing these new realities in America's metropolitan regions, this book argues that a few lessons are emerging: first, inequity is bad for economic growth; second, bringing together the concerns of equity and growth requires concerted local action; and third, the fundamental building block for doing this is the creation of diverse and dynamic epistemic (or knowledge) communities, which help to overcome political polarization and to address the challenges of economic restructuring and social divides.

Sommario/riassunto	This ebook consists of a summary of the ideas, viewpoints and facts presented by Bill Clinton in his book "Back to Work, Why We Need Smart Government for a Strong Economy". This summary offers a concise overview of the entire book in less than 30 minutes reading time. However this work does not replace in any case Bill Clinton's book. Clinton argue that America needs a strong private sector and a smart government working together to restore the American Dream.
