Sommario/riassunto	This ebook consists of a summary of the ideas, viewpoints and facts presented by George Soros in his book "The Age of Fallibility: Consequences of the War on Terror". This summary offers a concise overview of the entire book in less than 30 minutes reading time. However this work does not replace in any case George Soros's book.  Soros believes that the US has become a "feel-good" society and he believes that our civilization is at stake if America does not redress this. Moreover he analyses the current structure of the US in the light of an open society structure.
