Sommario/riassunto	Continuing the themes that have been addressed in The Humanities in Architectural Design and The Cultural Role of Architecture, this book illustrates the important role that a contradiction between form and function plays in compositional strategies in architecture. The contradiction between form and function is seen as a device for poetic expression, for the expression of ideas, in architecture. Here the role of the terms ""form"" and ""function"" are analyzed throughout the history of architecture and architectural theory, from Vitruvius to the present, with particular empha
