Titolo	Air Quality Integrated Assessment [[electronic resource]] : A European Perspective // edited by Giorgio Guariso, Marialuisa Volta
Pubbl/distr/stampa	Cham, : Springer Nature, 2017 Cham, : Springer International Publishing, : Imprint : Springer, , 2017
ISBN	3-319-33349-6
Edizione	[1st ed. 2017.]
Descrizione fisica	1 online resource (VII, 110 p. 50 illus.)
Collana	PoliMI SpringerBriefs, , 2282-2577
Disciplina	363.7392
Soggetti	Air pollution Environmental monitoring Computer simulation Atmospheric Protection/Air Quality Control/Air Pollution Monitoring/Environmental Analysis Simulation and Modeling
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Air quality in Europe: today and tomorrow -- A framework for Integrated Assessment Modelling -- Current European AQ planning at regional and local scale -- Strengths and weaknesses of the current EU situation -- Two illustrative examples: Brussels and Porto -- Conclusions: A way forward.
Sommario/riassunto	This book is open access under a CC BY 4.0 license. This book reports on the results of an extended survey conducted across Europe within the framework of the APPRAISAL FP7 project to determine the extent to which an integrated assessment approach to air quality is being adopted, on the one hand, by regional and local authorities to develop air quality plans and, on the other, by researchers. Following a detailed analysis of the role and structure of the components of an integrated assessment study, the results of the survey are considered from a variety of perspectives. Above all, the book discusses the new light the survey sheds on emission abatement policies and measures planned at regional and local scales, and on their synergies/trade-offs with

measures implemented at the national scale. Detailed consideration is given to the currently available modeling methodologies for identifying emission sources, assessing the effectiveness of emission reduction measures, and evaluating the impacts of emission abatement measures on human health. Current strengths and weaknesses revealed by the survey are explored, and the application of an integrated assessment tool in two case studies (in Brussels and Porto) is discussed. The book will appeal to all those interested in the use of integrated assessment in connection with the sources, effects and control of air pollution. .

#### Sommario/riassunto

Exploring the fascinating cross-cultural influences between Jews and Christians in Italy from the Renaissance to the twentieth century, *Acculturation and Its Discontents* assembles essays by leading historians, literary scholars, and musicologists to present a well-rounded history of Italian Jewry. The contributors offer rich portraits of the many vibrant forms of cultural and artistic expression that Italian Jews contributed to, but this volume also pays close attention to the ways in which Italian Jews - both freely and under pressure - creatively adapted to the social, cultural, and legal norms of the surrounding society. Tracing both the triumphs and tragedies of Jewish communities within Italy over a broad span of time, *Acculturation and Its Discontents* challenges conventional assumptions about assimilation and state intervention and, in the process, charts the complex process of cultural exchange that left such a distinctive imprint not only on Italian Jewry, but also on Italian society itself. This collection of rigorous and thought-provoking essays makes a major contribution to both the history of Italian culture and the cultural influence and significance of European Jews.
