

1. Record Nr.	UNINA9910168759903321
Titolo	Microbial genomics
Pubbl/distr/stampa	[London] : , : Society for General Microbiology, , 2015- London : , : Microbiology Society
ISSN	2057-5858
Descrizione fisica	1 online resource
Disciplina	579.3135
Soggetti	Microbial genomics Genomics Genome, Microbial Periodicals. Periodical Fulltext Internet Resources.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed
Nota di contenuto	Efficacy and direct costs of chronic hepatitis C treatment with first generation NS3/4A protease inhibitors in a real life population -- Efficacy of HCV treatment in Poland at the turn of the interferon era - the EpiTer study -- Prevalence of HCV genotypes in Poland - the EpiTer study -- Simple non-invasive markers for early diagnosis and determination of the severity of liver diseases -- The influence of anti-HBc status on the sustained virological response rate in HCV-infected patients treated with pegylated interferon alfa 2 and ribavirin -- The occurrence of autoantibodies in patients with chronic HCV infection, including patients dialyzed and after kidney transplantation.
