| 1. Record Nr.           | UNINA9910169255603321   |
| Titolo                  | CODES+ISSS : 2016 International Conference on Hardware/Software Codesign and System Synthesis : October 2-7, 2016, Pittsburgh Marriott City Center, Pittsburgh, PA // Association for Computing Machinery   |
| Pubbl/distr/stampa      | New York : , : Association for Computing Machinery, , 2016  |
| ISBN                    | 1-4503-4483-6   |
| Descrizione fisica      | 1 online resource (294 pages)   |
| Disciplina              | 005.42  |
| Soggetti                | Systems Software  |
| Lingua di pubblicazione | Inglese   |
| Formato                 | Materiale a stampa  |
| Livello bibliografico   | Monografia  |
| Sommario/riassunto      | <p>Annotation The International Conference on Hardware Software Codesign and System Synthesis is the premier event in the system level design, modeling, analysis, and implementation of modern embedded and cyber physical systems, from system level specification and optimization down to system synthesis of multi processor hardware software implementations The conference is a forum bringing together academic research and industrial practice for all aspects related to system level and hardware software co design CODES is part of the ESWeek conference.</p> |
