### Sommario/riassunto

Increasingly ageing populations and a slowing rate of growth in the macroeconomy are forcing advanced countries to reconsider their social security programmes. The need for detailed examination of the possible reforms and initiatives has never been greater. This book brings together internationally-renowned scholars to evaluate the effect of recent social security reforms in advanced countries (pension programmes in particular) and to suggest policy reforms for the future. Including detailed studies of countries including Australia, Germany, Japan, Scandinavia, the UK and the USA, this b
