children want? / Margaret O'Brien -- Improving the neighbourhood for children : possibilities and limitations of "social capital" discourses / Virginia Morrow -- Planning childhood : children's social participation in the town of adults / Claudio Baraldi.

Sommario/riassunto	This timely and thought-provoking book explores children's lives in modern cities. At a time of intense debate about the quality of life in cities, this book examines how they can become good places for children to live in. Through contributions from childhood experts in Europe, Australia and America, the book shows the importance of studying children's lives in cities in a comparative and generational perspective. It also contains fascinating accounts of city living from children themselves, and offers practical design solutions.The authors consider the importance of the city as a social,
