Descrizione fisica	1 online resource (265 p.)
Altri autori (Persone)	BuntonRobin <1954->
Disciplina	306.461 616/.042
Soggetti	Medical genetics - Social aspects Human genetics - Social aspects Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (pages [208]-235) and index.
Nota di contenuto	Book Cover; Title; Contents; Acknowledgements; Introduction: the new genetics, health, and 'the public'; The scope and context of the new genetics; Genes, technology, and public health; The new genetics and the media; Facilitating autonomy: the discourse of genetic counselling; Global genes; The new genetic citizens; Bibliography; Index
Sommario/riassunto	The rapid advancement of genetic science, fuelled by the Human Genome Project and other related initiatives, promises a new kind of public health practice based on the pre-detection of disease according to calculations of genetic risk. This book by two well-known sociologists: * explores the implications of the new genetics for public health as a body of knowledge and a domain of practice * assesses the impact of new genetic information and technologies on conceptions of health, illness, embodiment, self and citizenship * critically examines the complex discourses surrounding hum
