Postmodern science and the Marxist dialectic10 'Not show biz': Pluralist politics and the emancipation of critique; Notes; Bibliography; Index
Sommario/riassunto	This book traces the crystallisation of post-Marxism as a specific theoretical position in its own right and considers the role played in its development by post-structuralism, postmodernism and second-wave feminism. It examines the history of dissenting tendencies within the Marxist tradition and considers what the future prospects of post-Marxism are likely to be.
