	Sommario/riassunto	Health and welfare professionals increasingly have to collaborate and co-ordinate their practice in order to provide a more integrated service for the consumer. Going Inter-Professional brings together academics, professionals and researchers to assess the implications for all the professions involved and the practical developments in hospitals, general practice and community care. Individual contributors look at: *

the theoretical background to inter-professional work * education and management issues * inter-professional practice issues in work with children, disabled,
