Sommario/riassunto	Representatives of the governments, international organizations and universities are called to develop a vision for eDemocracy, and eGovernment. The ICEDEG is a peer review conference series that covers technical and non technical aspects of eSociety, eGovernance, eParticipation, eDemocracy, eGovernment and eHealth. The main objective is to discuss the regions transition to an information and knowledge society that will accelerate and enhance regional economic, social, cultural and technological development and exchange.

Collana	Biblioteca del Instituto Antonio de Nebrija de Estudios sobre la Universidad Biobibliografâia de Gregorio Maraänâon
Soggetti	Medicine - Spain Physicians Biobibliography Biography
Lingua di pubblicazione	Spagnolo
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	Here we have also opted for a biobibliography in the sense, if you like, etymological, that is, together with a detailed biographical review of Marañón himself, his bibliography is presented in such a way that the first serves as interpretive coordinates of the second . In this case, we have decided to systematically, solely and exclusively, expose the individual "primary" bibliography, that is, the work of Marañón himself. In relation to what is known as "secondary" bibliography, or what is the same, what has been written about Marañón, an annotated bibliographic review of these works has been included. The reason is twofold: Firstly, because in the case of the biographies that have been written about Marañón –with the exception of Pedro Laín's biographical essay–, in general terms, it has a hagiographic and descriptive character and few interpretative rudiments. And, secondly, because the detailed and academic studies of specific aspects of his work are not very numerous and, therefore, do not require a clarification, let's call it numerative.
