Kearcher -- Wiring a usable center : usability research and writing center practice / Stuart Blythe -- Drill pads, teaching machines, and programmed texts : origins of institutional technology in writing centers / Neal Lerner -- Virtual high school writing centers : a spectrum of possibilities / Pamela B. Childers, Jeannette Jordan, James K. Upton -- The community

college mission and the electronic writing center / Ellen Mohr -- Random memories of the virtual writing center : the modes-to-nodes problem / Ray Wallace -- Computers in the writing center : a cautionary history / Peter Carino -- UnfURLed : 20 writing center sites to visit on the information highway / Bruce Pegg -- Computers and writing centers : an annotated bibliography / Steve Sherwood.

Sommario/riassunto	Published in 1998, Wiring the Writing Center was one of the first few books to address the theory and application of electronics in the college writing center. Many of the contributors explore particular features of their own ""wired"" centers, discussing theoretical foundations, pragmatic choices, and practical strengths. Others review a range of centers for the approaches they represent. A strong annotated bibliography of signal work in the area is also included.
