Myths of Resistance in European Memory Cultures after 1945 153 Into the Darkness: Revolutionary Critical Pedagogy for a Socialist Society. A Manifesto 173 List of Contributors 191
Sommario/riassunto	All around the world and throughout history, resistance has played an

important role - and it still does. Some strive to raise it to cause change. Some dare not to speak of it. Some try to smother it to keep a status quo. The contributions to this volume explore phenomena of resistance in a range of historical and contemporary environments. In so doing, they not only contribute to shaping a comparative view on subjects, representations, and contexts of resistance, but also open up a theoretical dialogue on terms and concepts of resistance both in and across different disciplines. With contributions by Micha Brumlik, Peter McLaren, and others.
