   Sommario/riassunto   Grâce à une approche originale combinant sources écrites et enquête orale, science politique, sociologie et histoire, cette étude très fouillée reconstitue la dynamique du mouvement révolutionnaire chilien, vu « par en bas », au niveau des entreprises occupées, des ceintures industrielles, des quartiers populaires. Basé sur la respiration des politiques du conflit qui ont rythmé la « voie chilienne au socialisme », ce livre montre le développement et la radicalisation du mouvement ouvrier, les formes d'organisation d'une classe mobilisée et les répertoires d'action utilisés.
