| 1. | Record Nr. | UNINA9910217057903321 |
| | Titolo | 2017 19th International Conference on Transparent Optical Networks (ICTON) / / Institute of Electrical and Electronics Engineers |
| | Pubbl/distr/stampa | [Place of publication not identified] : , : IEEE, , 2017 |
| | ISBN | 1-5386-0859-6 |
| | Descrizione fisica | 1 online resource |
| | Disciplina | 621.367 |
| | Soggetti | Optical data processing |
| | Lingua di pubblicazione | Inglese |
| | Formato | Materiale a stampa |
| | Livello bibliografico | Monografia |
| | Sommario/riassunto | ICTON addresses applications of transparent and all optical technologies in telecommunication networks, systems, and components ICTON topics are well balanced between basic optics and network engineering Interactions between those two groups of professionals are a valuable merit of conference ICTON combines high level invited talks with carefully selected regular submissions. |
