Formato	Musica
Livello bibliografico	Monografia
Sommario/riassunto	<p>The third book in the MARKED MEN series. Somewhere between the perfect fairytale and a broken heart lies a happy ending...Loud and colourful, Cora Lewis is used to keeping her rowdy colleagues at the tattoo shop in line, but all her fiery bluster hides a heart that's been mistreated too many times. After her supposed happy-ever-after went out of the window, she's become fixated on nothing less than 'perfect'. But does such a guy exist?Rome Archer is as far from perfect as can be. Rigid and uncompromising, he's returned from his final tour of duty a broken man, and nightmares of war plague his every moment. Faced with family rifts and no idea what to do with his time, he's used to seeing the world in black and white, good and bad - and right now, he's lost in the dark.On the surface, neither is what the other person wants - but in the search for perfect, imperfection might just be what they need...</p>

Percentage of Respondents Intending to Be Vaccinated for Influenza by Worry About Getting Influenza and Beliefs About Whether Influenza Vaccination Causes Influenza; Encouraging Practice Change Around Adult Vaccination; Chapter Three: Recommendations
Chapter Four: Conclusions and Policy Implications
References

Sommario/riassunto

Vaccine-preventable disease continues to take a heavy toll on adults despite the widespread availability of effective vaccines. This report identifies where efforts to improve the delivery of adult vaccination have stalled and recommends targeted strategies that are supported by available evidence and build on existing infrastructure.
