

1. Record Nr.	UNINA9910219983703321
Titolo	Assessing patient safety practices and outcomes in the U.S. health care system // Donna O. Farley ... [et al.]
Pubbl/distr/stampa	Santa Monica, CA, : RAND, 2009
ISBN	1-282-39861-X 9786612398612 0-8330-4902-X
Descrizione fisica	1 online resource (231 p.)
Collana	Technical Report
Altri autori (Persone)	FarleyDonna
Disciplina	362.110973
Soggetti	Outcome assessment (Medical care) - United States Hospital patients - United States - Safety measures - Evaluation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 197-201).
Nota di contenuto	Introduction and background -- Uptake of patient safety practices in four U.S. communities -- Use of the hospital survey on patient safety culture -- National survey on adoption of NQF safe practices -- Trends for patient safety outcomes -- Suggested approach for monitoring effects of the patient safety initiative.
Sommario/riassunto	Presents the results of a two-year study that analyzes how patient safety practices are being adopted by U.S. health care providers, examines hospital experiences with a patient safety culture survey, and assesses patient safety outcomes trends. In case studies of four U.S. communities, researchers collected information on the dynamics of local patient safety activities and on adoption of safe practices by hospitals.
