	Sommario/riassunto	Le XVIIIe siecle a connu une extraordinaire inflation du peritexte. La preface y tend a s'affranchir du corps du recit et a se donner en morceau autonome. Le dossier presente ici, qui s'etale sur deux volumes couvrant le siecle entier, comprend plus de 300 prefaces, inedites de rares exceptions pres. Le choix n'a ete guide par aucune visee demonstrative. C'est d'abord un instrument de travail qu'on a voulu fournir. le cordieux index qui accompagne le dossier permettra a l'utilisateur d'y emprunter ses propres pistes de lecture. Certaines prefaces sont essentielles pour l'intelligence du roman. Il en est d'autres qui se presentent comme des romans en miniature et qui valent d'etre lues pour elles-memes. C'est dire qu'on espere a la fois plaire et instruire.
