Disciplina	236.0902
Soggetti	Eschatology - History of doctrines - Middle Ages, 600-1500
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The editors assemble evidence to illustrate both the positive and the negative aspects of the eschatological element in mediaeval thought. An interdisciplinary approach, with a comparative study of sources, helps to highlight the intellectual preoccupations of many religious thinkers who grappled with the overwhelming prospect of Universal destruction, questioned the role of the individual in the economy of salvation, and attempted to see the relevance of everyday social and political events to a vision of history in which the end is nearer than the beginning.
