Sommario/riassunto

"The upcoming U.S. presidential election presents an opportunity to confirm, better define, or redefine America's role in the world. Economic power and policy will have an important place in any conception of the United States' role in the world. This report presents the strategic choices America faces regarding the international economy over the terms of the current and next U.S. administrations. The goal of U.S. international economic policy is to contribute to national economic growth and prosperity. Although the United States faces many choices regarding the global economy, this report focuses on policy choices in the areas of maintaining and improving the rules-based international economic system; working with China and better integrating it into the existing system; supporting the economic growth of allies, friends, and partners; and using economic tools to change unwanted behavior and counter adversaries"--Back cover.
