

1. Record Nr.	UNINA9910220092203321
Titolo	Outcome measures for effective teamwork in inpatient care [[electronic resource]] : final report / / Melony E. Sorbero ... [et al.]
Pubbl/distr/stampa	Santa Monica, CA, : RAND Corp., c2008
ISBN	1-281-73671-6 0-8330-4602-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (146 p.)
Altri autori (Persone)	SorberoMelony E
Disciplina	362.1068
Soggetti	Health care teams Outcome assessment (Medical care) Medicine - Quality control Medicine - Safety measures Medical errors - Prevention
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references .
Nota di contenuto	Review of the literature on teamwork and patient safety -- Selection of clinical areas -- Measure identification and rating on relationship to teamwork -- Empirical testing of selected measures -- Discussion.
Sommario/riassunto	The Department of Defense (DoD) has been one of the leaders in actions to improve teamwork, which it has pursued with the goal of achieving safer care and reducing adverse events for patients served by its military hospitals. DoD and the Agency for Healthcare Research and Quality (AHRQ) have worked together to develop tools to improve teamwork in delivering care in order to achieve safer outcomes for patients. In 2004, AHRQ modified its Patient Safety Evaluation Center contract with RAND to add an analytic study to identify and test measures that have the potential to capture improvements in t
