	SUMMARY OF GROUP DELIBERATIONS FOR STEP THREE; Appendix C - EXERCISE
Sommario/riassunto	Future U.S. national security strategy is likely to be profoundly affected by the ongoing, rapid evolution of cyberspace--the global information infrastructure--and in particular by the growing dependence of the U.S. military and other national institutions and infrastructures on potentially vulnerable elements of the U.S. national information infrastructure. To examine these effects, the authors conducted a series of exercises employing a methodology known as the Day After ... in which participants are presented with an information warfare crisis scenario and asked to advise the president on
