Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	Over the past decade, the Federal Emergency Management Agency (FEMA) has taken steps to strengthen its ability to plan and coordinate the U.S. government's response to disasters, while the U.S. Department of Defense (DoD) has worked to improve its support to FEMA. This research reviews and analyzes how DoD and FEMA work together to plan and execute disaster response activities, and recommends areas for improvement.
